ABOUT COMAC

HISTORY

Comac Corporation Inc. was founded in 1984 by Brian O'Connor with one purpose in mind, to capture and dominate the Global hand dryer market.

With approximately 65% market control to date, it is succeeding.

There is no secret to our success: great products, great quality, great service and great people. These were the foundations for our success with our first brand Nova hand dryers from 1984 to 1999.

In 1992, Comac launched on the market the first smallest compact vandal proof high power hand dryer, the Blast and start the era of fast drying (8 seconds) machines, always copied but never equaled since then. It's the only dryer with universal voltage.

1998 is the year of the Comac ONE, the first vandal-proof handicap compliant, modular quiet (under 70dB) hand dryer.

2004 Brian O'Connor passes away and Comac is acquired by a firm specialized in Electro-mechanic, E-Tronics, which area of expertise is electronics and new product development.

2014 Comac Corporation launched the first intelligent connected hand dryer: the **i-Blast**, a super intelligent **Blast**.

2016 After 2 years of intense research and development, Comac innovates once again: creation of the first intelligent hand dryer that is also a restroom digital advertising platform, it's a fully connected and 5.5 inch screen integrated hand dryer remotely managed.

2017 Comac launch the *new and improved* ONE dryer with 65 dB and ADA compliance. The redesign of the ONE has given the end user the unique feature of having the quietest dryer in the industry with a variable thermostat capability and customizable LED lighting.

2018 The **i-ONE** will be launched, it's basically the quiet version of the **i-Cast** that will come with a 7-inch screen.

Comac covers the Global market with professional representatives in every province and a nationwide network of electrical, janitorial, architectural, hospitality and industrial distributors. Better-than-competitive pricing, aggressive freight policies, industry leading warranties and quality and a stellar reputation with our customers, make Comac the leader in our industry and a leader in the international community.

MISSION

The basic philosophy of Comac Corporation:

To supply the finest quality warm air hand dryers, hair dryers, accessories and digital advertising systems for

use in public washrooms at competitive prices.

To supply these products while meeting the highest existing electrical and ergonomic standards and to constantly try to improve products and service level.

To market these products through selected, reputable and qualified distributors and to national and international accounts.

To establish a firm pricing structure which will allow our distributors to achieve their full potential and provide service for their customers.

To realize that our ultimate success is dependent upon customers and end user's satisfaction and to work to achieve this satisfaction.

INTERNATIONAL

Thanks to our partnership with our distributors across the globe, Comac is renown and present internationally:

North America: Canada, United States.

South America: Mexico.

Europe: UK, Germany, Poland, Netherlands.

Africa: Togo, Ghana, Burkina, Mali, Senegal, S. Africa.

Australia and New Zealand. Asia: Philippines. **Middle East.**

COMAC, BETTER SOLUTIONS THROUGH INNOVATION.

Comac Corporation is focusing its activities on revolutionary ecofriendly new hand dryers by investing more than 50% of sales generated in R&D. Comac brings you new technologies and design in modular and high-powered hand dryers and ultra-quiet hand dryers. Our new lines include the world's first contemporary design modular dryer, the sleek and quiet Comac **ONE**, the high powered, ecofriendly Comac **Blast** and **i-Blast**, and the unique powerful high-tech **i-Cast**.

We firmly believe that the Comac line offers you the most innovative dryers available in today's market. Our warranties double the competition and the ease of use and maintenance of our modular dryer is unparalleled. Entirely conceived and made in Canada, Quebec, our lines cover both the trendy establishment looking for contemporary, aesthetically pleasing designs and the public and/or institutional venue that demands a green dryer tough enough to withstand any abuse, while not taking up too much space in an already crowded washroom.

Specifying a Comac dryer guarantees you a quality product that is environmentally friendly, technologically innovative and backed by the best quality and warranty in the business.

At Comac, we believe in uniqueness and we achieve this through our products features and reliability.

iCAST Series

HAVE A SMART BLAST!

THE ONLY INTELLIGENT MARKETING & ADVERTISING
MATERIAL PLATFORM HAND DRYER WITH
WIFI, GSM & LAN TECHNOLOGY IN THE INDUSTRY

FEATURES

- Vandal proof-not scratchable with any sharp object
- Fastest drying time on the market
- Automatic infrared actuated sensor, for power conservation and maximum hygiene
- **Exclusive: Adjustable output airflow temperature**
- Robust, vandal proof, tamper-proof design and construction for greater product durability and longevity
- Lifetime warranty – the best one in the industry
- High velocity (100 CFM) airflow for ultra high speed hand drying: 8 sec.
- 5.5 inches touch screen, full WiFi, GSM, Ethernet, Bluetooth connectivity for data upload & remote dryer maintenance
- Unique interactive communication between the machine and the end user, full WiFi monitoring worldwide
- Radio FM/AM worldwide (option)
- **Smallest footprint on the market**
- Universal voltage: automatic voltage switching for ease of installation
- Designed for easy installation
- Contributes to LEED and BOMA building certifications
- Vandal proof ABS plexiglass screen protector
- Tamperproof screws
- Fire Alarm and Active Shooter Alarm (optional)

APPLICATIONS

- All public and commercial bathrooms and clean up areas. Factories, restaurants, pools, gyms, hospitals and schools
- All facilities with a need for advertising
- Marketing and advertising companies for better reach of target audiences
- Great platform to reach employees and staff internally
- Made for high traffic public areas

DIMENSIONS

White

Black

Stainless Steel

Chrome

SPECIFICATIONS

Voltage Universal 115-230*VAC (*50/60Hz)

Wattage 1450 W at 5.2A (230VAC)

Motor Vacuum Motor, 36,000 RPM (outside the enclosure)
5/8HP 20,000 RPM (installed in the enclosure)

Colour White, Black and Stainless Steel

Finish Chrome, scratch-resistant porcelain,
brushed stainless steel.

Heating Element 725w resistance coil.

Construction Material Reinforced Steel

Controls & Wiring Automatic resetting thermostat with cutout when airflow is restricted. Infrared sensor cutout two seconds after hand removal, and 85 seconds after initiating drying.

Installation Removable predrilled baseplate for easy mounting.

Warranty LIFETIME

CSA certified for use in Canada and the U.S.

CE approved for use where applicable.

Patent Pending

DUAL FLOW Jet Series

COMMERCIAL HAND DRYER

THE FIRST **CAVITY** DRYER THAT IS 99.9% BACTERIA FREE. SIMPLE DESIGN, DRAINAGE SYSTEM, ECO-FRIENDLY, MAXIMUM ERGONOMY AND A LIFETIME WARRANTY. SIMPLY A NO BRAINER.

FEATURES

- THIN design with rapid drying, cost effective and most hygienic.
- Uses a highly efficient motor to create strong winds to sweep the water off from hands.
- Dry hands in 7 seconds by super-powered jet air.
- 3-point infrared sensor.
- Brushless powerful motor and HEPA filter to create clean air without bacteria.
- Brightness unique LED indicator.
- 25 seconds of continuous timer protection.
- Clean air by UV sterilization to keep air bacteria free.
- No disposal, storage or labor costs compared with paper towels. You only need to clean once a day.
- Up to 90% savings, compared to paper towel costs.
- Intelligent heat element, active only when ambient temperature is less than 25°C.
- ECO-friendly product by power-saving clean technology.
- Integrated water evacuation drain to water tank and/or main bathroom drain.

APPLICATIONS

- Washrooms and clean up areas, commercial facilities, factories, restaurants, hospitals, schools, pools and gyms.
- Ideal for high and very high traffic public areas.
- Made for high traffic public areas.

dyson

WHY THE COMAC DUAL FLOW IS THE BEST DYSON CROSS IN 11 **IMPORTANT POINTS:**

- ☐ **MADE IN CANADA FOR OVER 35 YEARS**
- ☐ **COSTS WAY LESS**
- ☐ **COMAC WILL NEVER SELL DIRECT DISTRIBUTORS IN OVER 10 COUNTRIES**
- ☐ **BEST WARRANTY IN THE WORLD : LIFETIME**
- ☐ **QUIETER 70 dB VS 80 dB**
- ☐ **DRYING TIME 10s FASTEST CAVITY DRYERS ON THE MARKET**
- ☐ **ABS BACTERIAL COATED RESIN MATERIAL USED THROUGH OUT**
- ☐ **DOUBLE ANTIBACTERIAL FILTRATION: UV+HEPA VS ONLY HEPA**
- ☐ **INTEGRATED WATER EVACUATION DRAIN AND BUILT IN REMOVABLE RESERVOIR**
- ☐ **BIGGER CAVITY OPENING FOR REAL NO-TOUCH USE**
- ☐ **WITH OUR VARIABLE HEAT CONTROL IT IS 1/3 OF THE OPERATING COST OF OTHER DRYERS**

ACCESSORIES

MODEL: HORIZONTAL BABY CHANGING STATION

MODEL NO: C-000011034

DESCRIPTION

TECHNICAL INFORMATION:

- Material: durable and high quality HDPE
- Product weight: 12.4 kg / 27.3 lb
- Loading Weight: 15 kg / 33 lb
- Product size: 540mm / 21.2in(W) x 820mm/32.2in(H) x 140mm / 5.5in(D)
- Packing: 1pcs/ctn
- Carton size: 84cm / 33in x 13cm / 5.1in x 22.5in
- G.W/N.W.: 12.4kg-27.3lb / 11.8kg-26lb
- Color: white

MODEL: VERTICAL BABY CHANGING STATON

MODEL NO: C-000011035

DESCRIPTION

TECHNICAL INFORMATION:

- Material: durable and high quality HDPE
- Product weight: 3.5kg / 7.7lb
- Loading Weight: 25kg / 55.1lb
- Product size(closed): 340mm / 13.3in(W) x 510mm / 20in(H) x 140mm/5.5in(D)
- Product size(opened) : 340mm / 13.3in(W) x 510mm / 20in(H) x 328mm / 12.9in(D)
- Carton size: 63cm / 24.8in x 37.5cm / 14.7in x 54.5cm/21.4in
- G.W/N.W.: 14kg-30.8lb / 13kg-28.6lb
- Color: white

FEATURES

- Wall-mounted hang-up hair dryer with LED light
- Quiet, long-life motor, 1600 watts of drying power
- 3 positions switch with 2 heat/air settings built-in
- Lifeline shock protection that is built into the unit
- Hanger loop lifts cord off counter top and floor
- Metal mounting plate for secure wall attachment
- Long-lasting electronic light – no bulbs to burn out or replace
- ADA compliant when mounted below 48 inches

RECESS kits

ADA-COMPLIANT STAINLESS-STEEL RECESS KIT

MODEL NO: C-000011031

The Comac Recess Kit is a one-piece stainless steel construction and is very easy to install. If a dryer is not ADA compliant, this recess kit will be mandatory to fit the necessary requirements. It's also perfect to keep your wall clean and as well for hallways and narrow bathrooms.

ADAPTER-WALL ANTIBACTERIAL PROTECTION STAINLESS STEEL PLATE

MODEL NO: C-000011032

This stainless steel adaptor plate covers the old mounting wholes and wall defects when replacing an old dryer or a paper towel dispenser. It's also adding a renewed, clean and modern look to the old bathroom setup and will help you to keep the wall spotless clean.

THE COST OF DRYING YOUR HANDS

PAPER TOWEL

Cases of paper towels used per month	1	
Cost per case, delivered	2	
Cost of paper towels per month <i>Box 1 x Box 2</i>	3	
Handling cost (see Note A) <i>Box 3 x 25%</i>	4	
Total paper towel costs per month <i>Box 3 + Box 4</i>	5	

COMAC HAND DRYERS

Number of paper towels per case (see Note B)	6	3,750
Number of paper towels used per month <i>Box 1 x Box 6</i>	7	
Number of hand dryings per month (see Note C) <i>Box 7 divided by 2.5</i>	8	
Hours of hand dryer usage per month (see Note D) <i>Box 8 divided by 360 (BLAST) or 120 (ONE)</i>	9	
Cost of electricity per kWh (see Note E)	10	\$0.12
Total monthly operating cost (see Note F) <i>Box 9 x Box 10 x 1.45</i>	11	

OPERATING COST SAVINGS

Monthly savings, hand dryers vs. paper towels <i>Box 5 - Box 11</i>	12	
Yearly savings, hand dryers vs. paper towels <i>Box 12 x 12</i>	13	
Savings in operating costs over 10-year warranty period <i>Box 13 x 10</i>	14	

CALCULATE PAYBACK PERIOD

Number of hand dryers required (see Note G)	15	
Cost per hand dryer including installation	16	
Total capital cost of hand dryers <i>Box 15 x Box 16</i>	17	
Payback period (months) <i>Box 17 divided by Box 12</i>	18	

After payback period you will continue to save the amount in Box 12 monthly

A. 25% handling allowance includes the cost of generating requisitions and purchase orders, receiving, storing, servicing towel dispensers, collecting and disposing of used towels. It does not include any incremental plumbing costs that may result from blockage by paper towels.

B. 3,750 multi-fold towels per case is industry standard.

C. 2.5 multi-fold towels per hand dry is industry standard.

D. The BLAST delivers (360) 10-second hand drying cycles per hour of operation. The ONE delivers (120) 30-second cycles per hour.

E. Average North American commercial electricity rate is \$0.12 per kWh.

F. Both The BLAST and The ONE consume 1.45 kilowatts when in operation.

G. Estimate 1-2 BLAST hand dryers or 2-3 ONE hand dryers per 4 washbasins (depending on use), minimum 1 per washroom.

FRIENDLY

HAVE YOU EVER CONSIDERED HOW MUCH IT COSTS TO DRY YOUR HANDS WITH PAPER?

A TYPICAL FAST FOOD RESTAURANT WITH TWO RESTROOMS USES ON AVERAGE 2,000 POUNDS OF PAPER TOWELS - THE EQUIVALENT OF 34 TREES - EACH YEAR! A TYPICAL SCHOOL MIGHT USE FIVE TONS OF PAPER TOWELS ANNUALLY - ABOUT 89 TREES.

GREEN Facts

ENVIRONMENTALLY FRIENDLY

COMAC HAND DRYERS ARE ENVIRONMENTALLY FRIENDLY

The environmental argument for hand dryers is self-evident: paper towels require the destruction of trees and forests and result in water pollution. Whether or not an establishment is forced through local legislation to reduce non-recyclable waste, the environmental choice is clear. Up to 20,000 gallons of water is polluted in the production of 1 ton of paper towel. And paper towels cannot be recycled...they only add to our ever increasing landfills.

Hand dryers also promote hygiene because washrooms are generally cleaner and more sanitary where they are used. There have been unsubstantiated claims by the paper industry that warm-air hand dryers are unsafe or have adverse health effects. In an independent study, the Mayo Clinic concluded that these claims were **untrue**. We encourage you to decide for yourself: please visit our website to download the complete unedited four-pages summary of the **MAYO CLINIC STUDY** in PDF format and to see the **Innovaltech's 2008 Independent Environmental Laboratory Study**.

ECO FRIENDLY BENEFITS OF HAND DRYERS

Save trees from being cut down and save land fills from paper towel waste. Hand dryers use less energy than it takes to produce an equivalent amount of paper towels.

ECONOMICAL BENEFITS OF HAND DRYERS

Hand dryers are inexpensive to operate and eliminate the many costs associated with paper towels, like purchasing, stocking, refilling, clean-up and waste removal.

SANITARY BENEFITS OF HAND DRYERS

Health codes require a hand drying method be present at all times. Warm air won't run out on you! Paper towel waste can clog toilets and sinks, creating an unsanitary and uninviting environment.

HAND DRYING THAT DOESN'T COST THE EARTH

The Blast hand dryer simultaneously blows water o hands and evaporates residual moisture, drying hands completely in approximately 10 seconds. Using 1/6th of the energy used by conventional hand dryers, Blast is extremely environmentally friendly. It costs up to 95% less than paper towels to operate, and compared to conventional warm air dryers, costs 80% less to run. Applying to **all COMAC Hand Dryers**:

- USING 1/6TH OF THE ENERGY OF A CONVENTIONAL DRYER
- ENVIROMENTALLY FRIENDLY
- CONTAIN UP TO 80% RECYCLED MATERIAL
- CSA/US AND CE APPROVED
- QUALIFY FOR LEED® CREDITS

Discover what Comac does for the environment

REDEFINING HAND DRYERS

Comac is proud to offer our innovative and technologically-advanced hand dryers.
Comac BLAST and ONE hand dryers are the solution for saving up to 90% in annual hand drying operating costs.
Comac hand dryers provide reliable, trouble-free and cost-effective hand drying for restrooms.
Comac's GreenSpec Listed hand dryers are a great addition to your current sustainability practices.

Environmentally friendly and sustainable, Comac is the only hand dryer manufacturer providing dryers that contain up to 80% recycled material.

Comac brings you new technologies and design in modular and high-powered hand dryers.
Comac's line includes the world's first modular dryer, the sleek Comac ONE, and the high powered, eco-friendly Comac BLAST.
As the industry leader in performance and design, Comac has quickly become the manufacturer of choice for multi-location retailers and food-service establishments in North America and abroad.

The eco-friendly Comac BLAST is the choice for high traffic locations such as quick service restaurants, schools, stadiums, industrial settings, convenience stores, supermarkets and office buildings. The BLAST uses 1/6 th the energy of conventional dryers.
It features a 10 second dry time, 16,000 linear feet per minute air velocity, the rugged durability of a porcelain cast-iron cover, universal voltage (110v-240v) and a 10 year warranty. The vandal-resistant cast iron cover contains 100% recycled content, doubling that of its closest competitor.

Multiple-location retail, food-service outlets, elementary and middle schools, office buildings and libraries have chosen the Comac ONE for both retro-fit and new construction projects. The ONE represents the industry's lowest overall cost of ownership dryer. Once installed, electricians or service calls become a thing of the past. No other conventional dry-time unit can equal the 10 year warranty or worry-free ownership of the ONE.
Universal voltage, ONE module, ONE solution ! Even the zinc and steel cover of the ONE is 100% recyclable !

WARRANTY AND POLICIES

Life, 10 or 3 Years Limited Warranty

Comac dryers are designed and manufactured to provide years of worry-free performance.

Comac hand dryers are manufactured by experienced technicians guaranteeing you a defect-free unit for ten years.

This warranty applies to the original purchaser only and covers all dryer components.

The warranty covers only manufacturer's defects.

It does not cover complete dryer replacement, complete dryers or parts damaged during transportation,

installation or as a result of misuse, abuse, or normal wear and tear. It does not cover transportation, freight costs or labour.

Comac accepts no liability other than the repair and / or exchange of defective parts.

WARRANTY AND RETURNED GOODS PROCEDURES

- A Warranty Policy Statement is packed with each dryer supplied by COMAC.
 - In essence, COMAC warrants to the consumer that its products are free of defects in either material or workmanship. If, during the warranty period following a purchase, a consumer finds that a COMAC supplied dryer is defective, we will replace the components causing the problem at no charge.
 - In every case of goods being returned whether for warranty claims or otherwise, a Returned Goods Authorization number (R.G.A. No.) MUST first be obtained from COMAC. This R.G.A. system allows us to properly track and document each return and assure that the necessary follow-up is done. Returned Goods which do not have an authorized R.G.A. number will not be accepted by COMAC.
 - Warranty only covers defects. It does not cover wear and tear. It does not cover misuse or abuse. It does not cover transportation or freight costs or any labor charges associated with a repair. Our warranty policy, if properly explained by the distributor, will provide the purchaser with the deserved protection without the problems of misunderstanding.
 - Warranty requires that the purchaser with a defective dryer or component return it, prepaid, to COMAC or one of its authorized distributors. If, upon examination, the product is found to be defective within the warranty period, the faulty parts will be repaired or replaced without cost.
- In the case of complete dryer repairs, however, labor will be chargeable. Every effort will be made by COMAC or its distributors to make such repairs as quickly as possible. The product will be returned to the purchaser on a freight collect basis.***
- As part of the agreement with COMAC, the distributor will deal with the customers in his market on warranty issues. The distributor must obtain the following information prior to making a warranty claim: Dryer model and voltage, serial number, date of purchase and exact nature of the problem. All of this information is necessary if COMAC is to make a proper assessment of the claim. If the claim is judged by COMAC to be valid, COMAC will send the correct replacement part and/or issue a return goods authorization for the return of the defective part. Please note that all replacement parts sent to a Distributor or his customer will be invoiced by COMAC. When the defective component or dryer is returned to COMAC along with the R.G.A. number, the appropriate credits will be issued. The distributor may ask COMAC to deal with his customer directly to expedite the situation by supplying the customer coordinates to Comac.
 - Return of goods, other than Warranty claims, will only be allowed if the distributor receives prior R.G.A. authorization from COMAC. In any such case, contact the head office of COMAC and give full details about the product in question and the reason you wish to return it.
 - A fifteen per cent restocking charge will apply to all "non warranty" returned goods, except for goods shipped by COMAC in error. COMAC will only accept authorized returns that are shipped prepaid.
 - All products are shipped F.O.B. to our nearest U.S. warehouse or our Saint-Jerome warehouse. Any claim for damage in transit must be made by the distributor to the carrier.

Limited Lifetime Warranty on Comac dryers

Comac extends a limited warranty to the structural components of its products **ONE SERIES, BLAST SERIES AND DUAL FLOW SERIES.**

Comac warrants their products for the lifetime of each product against manufacturer's defects in materials and workmanship. Products carry the warranty specified for that category.

Only One, Dual Flow and Blast series manufactured by Comac, including the i series, are subject to a lifetime warranty period from the date of purchase against manufacturer's defect in materials and workmanship.

The conditions of the warranty are: Products shall have been subject to only normal use and service and shall not have been misused, neglected, altered, improperly set up or otherwise damaged; and there shall be no evidence of tampering or deliberate misuse or destruction. packaging standards should be maintained, see Freight Damage.

Defects to Comac products will be determined solely by Comac and not by any representative, distributor or dealer of or for Comac. Upon determination of a defect, Comac's sole obligation will be to repair or replace the defective part with same or similar product.

Any claim against Comac for defects in materials or workmanship must be in writing. Comac must authorize the return of any alleged or defective part before it is returned. The party making the claim must prepay all shipping and transportation costs. Comac will not accept charges for parts purchased unless the conditions of the warranty have been satisfied.

Comac reserves the right to substitute, discontinue, alter or modify any product or part thereof, at any time without prior notice. In such cases Comac may, at its sole discretion, substitute the warranted product.

No Comac representative, distributor or reseller is authorized to assume for Comac any other obligations or liabilities in connection with the product, or alter the terms of this warranty in any way.

Comac shall not be liable for damages, including special, incidental or consequential damages arising out of or in connection with the performance of a Comac product or its use by the owner.

Non-Comac made products carry the warranty extended by their manufacturer.

ONE BLAST

DUAL FLOW

RETURN POLICY

Verify each shipment immediately upon receipt against Comac's packing list to ensure accuracy. If a discrepancy is found, please contact the Comac Customer Service Department immediately. Comac accepts an even price exchange of standard products within 10 working days from delivery from an Comac warehouse with no restocking fees.

Should a return be requested for any reason other than a warranty matter 10 days or more after the shipping date, contact Comac's Customer Service Department for a determination of whether Comac will accept the desired return. Comac will carry out a full inspection of products before deciding whether or not to accept the return. All returns of this nature are subject to a 25% restocking fee. Returns are not accepted more than 30 days after the shipping date.

Freight Damage: Products arriving damaged in shipping is a 'non-warranty issue'. Claims must be made to the Comac Customer Service Department within 3 business days of receiving the product. Please be sure to sign for the package(s) as 'damaged'. Upon authorization to return the damaged product, all returns must be made to Comac within 30 days of delivery.

Standard Warranty: Should a problem be experienced with a Comac product within its given warranty period, please contact the Comac Customer Service Department to determine the nature of the product failure and to establish an adequate solution.

If a return for repair is needed, returns must be made within 30 business days of the Return Authorization (RMA).

Order Cancellation: Order cancellations must be made in writing with receipt of the cancellation confirmed. Cancellation of a product order Comac has produced or ordered raw materials for may result in Comac fully charging for materials and labor, or imposing a minimum cancellation fee of up to 50% of the purchase/sale price.
